

SnapWords® Word Sort

B - 1

- Print the following pages, cut each page into its four columns, then cut each column into separate words. Get four zip bags and put two columns into each one. Each zip bag should contain two groups of words.
- To prepare a center, give each pair of children one baggie. Their task will be to separate the words into two groups, however it makes the most sense to them. They will then explain the logic behind how they sorted the words. (ex: the endings of the words are the same in each group). *Skill: problem-solving and alphabetic principle.*

run	him	got	us
rut	hit	gob	bus
rub	hip	God	gus
rum	hid	gop	pus
rug	hill	gog	fuss
